

Movie Night at Higher Grounds

806 Red Drive in The Village GT Commons

"The Motherhood Manifesto"

...made possible by www.momsrising.org

"The Motherhood Manifesto documentary is a funny, fascinating, informative and finally infuriating film about motherhood in America." --Ann Crittenden, The Price of Motherhood.

Fast-paced and engaging yet carefully balanced and researched for journalistic credibility, THE MOTHERHOOD MANIFESTO turns the camera on America's hidden crisis of caring.

MomsRising.org!

Why are there so few women in leadership, and so many in poverty? We propose the following common sense ways to protect mothers and families:

- M** **Maternity/Paternity Leave**
Paid family leave for parents with new children
- O** **Open Flexible Work**
Work that allows for both work and family needs
- T** **TV We Choose & Other After-School Programs**
Programs that are GOOD for kids
- H** **Healthcare for All Kids**
Provide quality, universal healthcare to all children
- E** **Excellent Childcare**
Quality, affordable childcare available to all who need it
- R** **Realistic and Fair Wages**
Living wages for mothers and equal pay for equal work

To have a vibrant future we must invest in our children. The best way to ensure children are well cared for is to support their mothers.
